

St Andrew's Astro Turf

2 years old!

Background

St Andrew's 'Cabbage Patch' Astro is 2 years old and has been the focus of the school since it opened in March 2024.

The facility has shown immediate benefits for our hockey players and coaches with a record number making or coaching the Southern Free State sides for the 2025 season. It is no coincidence that these results have been achieved after the installation of our Astro. Each day in the winter, up to 300 boys of all ages practice and play matches on the turf, giving them technical skill and confidence in the game.

As you will appreciate this privilege comes at a price, with maintenance costs each year. To assist in costs, our boundary boards have been designed for advertising and to date have brought in a substantial amount of funds.

Benefits of Advertising on the Astro Boards

- Supporting a fast growing, high participation sport.
- Supersport Schools streaming of main games
- Provincial and National tournaments offering substantial crowd attendance and coverage.
- High player participation, with 45 teams (Junior and Senior School) using the Astro weekly.
- Inter-school derby's and matches weekly.

Astro Board Details

Boundary Boards | Per Annum | R8000 | Production and Installation R3000 | Size Double sided 3m x 60cm

Terms and Conditions

Contracts are renewed annually but should a sponsor pay 3 years up front the 4th year is free. All sign production will be done by the school but is for the sponsor's cost. The school reserves the right to refuse advertising should it be deemed inappropriate. Should vinyl need repairing before contract ends, we will consult with you. All signs are to be approved by marketing and will be limited to logos and contact details for play visibility.

Please contact Ailsa Uys on marketing@sasb.co.za for bookings or more information.
